

NILES EXPANDED METALS

Newsletter

The Premier Choice For Your Expanded Needs

Certified ISO 9002

A COMPLETE LINE OF EXPANDED METAL & GRATING PRODUCTS

Expanded Metal Capabilities:

- Sheet & Coil
- Micro Mesh to Heavy Grating
- Decorative & Architectural Patterns

Customize Your Order:

- Virtually Limitless Materials Available: Choose from Carbon, Stainless Steel, Aluminum, Titanium, Nickel Alloys, Copper, Brass, Plastic and more
- All Patterns Are Available Sheared, Notched, Punched, Bent, Corrugated...
- Custom Finishes Are Readily Available In Painted, Plastic Coated, Uncoated, Hot Dip Galvanized, Anodized & Color Plating...

Uses for Expanded Metal:

- Architectural & security fencing, storefront guards, air intake screens, windows, door & skylight guards, interior partitions & barriers, vault reinforcement, meter box guards, drive & sidewalk gates, cab/truck dividers, overhead light guards, machine guards, patio furniture, greenhouse benches, drying racks, food service equipment, landscape & utility carts, utility trailers, stairs and walkways...

Advantages of Expanded Metal:

- Cost effective alternative to perforated metals, no metal is lost in the expanding process
- Unlike woven wire products, expanded metal won't ravel; if cut at one end, the remaining strands continue to hold
- Versatile, with a great variety of sizes, styles and weights offering many choices to suit your needs
- Presents a virtually impenetrable barrier when used behind drywall or in ceilings
